

## PRESS RELEASE: FOR IMMEDIATE RELEASE

---

### **CovertTrack Announces Release of Covert SC™ - GPS Tracking Designed Specifically for Law Enforcement**

*Covert SC (Soft Case) offers exceptional tracking capability and flexible housing suitable for a variety of applications*

**April 22, 2021:** CovertTrack is pleased to release the new Covert SC™ (Soft Case) Tracker, the newest addition to its “Covert” line of GPS devices.

Packaged in a flexible plastic housing, the Device can be used in various deployments including bait operations to allow Law Enforcement to easily effect an arrest. Covert SC can also be used in stings, undercover operations, and other covert actions.

Covert SC is a 4G Tracker using GNSS, WiFi, and RF technology for superior location tracking. The device has a wide range of customizable settings, such as sleep timers, report intervals, tracking data storage, and much more. CovertTrack’s web interface, created specifically to meet law enforcement demands, offers superior mapping features and 24/7/365 customer support from headquarters in Scottsdale, AZ.

### **Notes for editors**

#### *About CovertTrack & 3SI Security Systems*

CovertTrack is a recognized leader in technical surveillance equipment. We create innovative, specialized tools for GPS tracking, bait vehicles, audio surveillance, and video surveillance. For nearly 15 years, CovertTrack has partnered with government organizations and police agencies across the U.S. to enable effective and secure covert investigations. In 2019, CovertTrack was acquired by 3SI Security Systems. 3SI provides advanced security solutions, supported by local law enforcement, to thousands of financial institutions and retailers worldwide. Together, the companies provide tactical solutions to enable secure, covert investigations to thousands of satisfied customers.
